

March 1, 1976 Monday

Dear Vickie and Jim,

It is snowing this morning but the sun is also trying to shine so I am sure we won't be having a big snow storm. For the last several days it has rained and hailed and snowed. Spring is here so the nice weather should be starting soon.

We played bridge with Donnelly's Saturday night and the score was close so no one lost any money. We played a long time and didn't get to bed until after three so we were kind of tired Sunday. I made a pizza which turned out real good except the crust wasn't quite crisp enough so I will have to keep trying until I get it the way we like it.

Jeannie is having a dinner party this Friday night given by the West Bend company. They will make the complete dinner and of course hope to get orders for their pots and pans. Jeannie is having her sisters and cousins over for the dinner.

Jeannie and Art hope to get their house started within the next few days. It will be wonderful for them as it is on the property that Uncle Cully has and it is near the golf course and they are very active in all the activities that go on there. Stella and Harold just quit the club and Stella just joined a public course which she will enjoy more.

Sandy and Dick are still hoping to get the house they want but they have to sell their house first and there

hasn't been much action on it. I guess the main draw back is they don't have a garage or a carport since they made that space into a family room. When I put Diane to bed Friday night she was in her room talking and dad said she is just talking so don't go in there but pretty soon she started saying grandpa, grandpa and it was so funny because he jumped up and went in and picked her up and brought her out in the living room. Consequently she slept with us as usual.

Thank you for the certificate and Art made copies for all of us.

Dad should hear soon if they get the contract for the towers.

Love,

Mom.
